

# Schreiner Group – innovative for over 65 years

Schreiner Group GmbH & Co. KG is an internationally active German family-owned business operating in the printing and film-converting industry. The company offers tailored products, solutions and services for the pharmaceutical industry and medical technology, logistics, mechanical engineering, the electronics and automotive industries. In addition, Schreiner Group's customer base includes banks and government agencies.

The product portfolio encompasses innovative specialty labels, including self-adhesive functional components, RFID labels, printed electronics, and security solutions for product, brand and document protection.
